SIR:

**SUPPLEMENTAL REISSUE DECLARATION UNDER 37 C.F.R. SEC. 1.175**

I, Chi-Leung Lau hereby declare:

1. I am an original first, and one of the named joint inventors, along with joint inventor Paul E. Fleischer, of the inventions disclosed and claimed in U.S. Patent 5,260,978 which was reissued as RE 36,633, entitled "SYNCHRONOUS RESIDURAL TIME STAMP FOR TIMING RECOVERY IN A BROADBAND NETWORK," on March 20, 2000.

2. I make this Supplemental Declaration Reissue Declaration under 37 C.F.R. Sec. 1.175 in support of reissue application Serial Number 09/292,668 filed April 16, 1999 to Paul E. Fleischer, et al., entitled "Synchronous Residual Time Stamp for Timing Recovery in a Broadband Network."

3. I have reviewed and understand the contents of the specification of the above referenced reissue application, including the claims, as further amended by the preliminary amendment filed contemporaneously with the continuation reissue application having Serial Number 09/292,668.

4. I reside in Marlboro, Monmouth County, New Jersey and have a post office address of 12 Buttonwood Drive, Marlboro, New Jersey 07746. I am a citizen of the United States.

5. I believe that new claims 33-36, filed in a Preliminary Amendment concurrent with the filing of continuation application Serial Number 09/292,668, are appropriate and allowable for reasons similar to those set forth in the REISSUE DECLARATION UNDER 37 C.F.R. SEC. 1.175 filed with the parent reissue application on November 8, 1995, as incorporated herein by

reference, on March 20, 2000.

reference. Specifically, new claims 33 and 34 are directed to a method for representing a timing clock of a service input signal at a source node of a packet based communications network. Claims 35 and 36 are directed to a method for recovering a timing clock of a service input signal at a destination node of a packet-based communications network. These claims generally correspond to subject matter supported in the specification of the original parent patent application (US Patent 5,260,978) at column 4 lines 31-54; column 5 lines 22 through column 6, lines 31; and column 8, lines 18-68, and recite the features of the present invention at a source or destination node. None of the original '978 patent claims are broadly directed to only a source or destination node.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful statements may jeopardize the validity of the application or any patent issued thereon.

It is respectfully requested that all written correspondence from the Patent and Trademark Office in connection with this application be addressed to Joseph Giordano, Esq., Telcordia Technologies, Room 1J106R, Morris Corporate Center, 445 South Street, Morristown, NJ 07960-6438.
